Special conditions: Mailings to all UPU destinations currently charged on a per kilo basis are now subject to a special clause invoking 'Bulk Charges'. These may apply (at the discretion of the receiving post office) for items weighing less than 60g where the total number of identical items exceeds 1500 per mailing or 5000 per fortnight. In essence, the per kilo rates is scrapped and piece and kilo cahрге will apply. We reserve the right to implement these charges on any mailing where Bulk Charges are applied by a local Post Office.
